## Features

---

### OEKO-TEX® Standard 100 (15.0.70467)

OEKO-Tex® CONFIDENCE IN TEXTILES STANDARD 100 15.0.70467 HOHENSTEIN HTTI Tested for harmful substances. [www.oeko-tex.com/standard100](http://www.oeko-tex.com/standard100)

### UV Protection UPF 50+

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sunscreens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type. All articles with the UPF 50+ product feature have a UV protection factor of 50+ according to the Australian / New Zealand standard (AS 4399/2020). This procedure tests the fabric in its unstretched new condition according to the solar spectrum in midsummer in Melbourne, Australia. A product marked with UPF 50+ according to this standard blocks more than 98% of the harmful UV-rays.

### OCS 50%

The indicated percentage of this product consists of organically grown cotton, certified according to the Organic Content Standard (OCS). The OCS is a globally recognized standard that verifies the presence and amount of organic material and ensures traceability throughout the entire supply chain.
