Features

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

BIONIC-FINISH Water Repellency

Nature-inspired technology gives textiles water-repellent properties and is based on a technology that does not intentionally use fluorine-containing finishing chemicals. A special microstructure on the fibre surface helps water and aqueous soiling to bead up and roll off, while preserving the material's characteristic properties.

GRS Outer shell 65%

The indicated percentage of this product consists of recycled polyester, certified according to the Global Recycled Standard (GRS). The GRS is a globally recognized standard that verifies the presence and amount of recycled polyester, ensures traceability throughout the entire supply chain, and includes additional requirements for environmental and social practices.

OCS Outer shell 32%

The indicated percentage of this product consists of organically grown cotton, certified according to the Organic Content Standard (OCS). The OCS is a globally recognized standard that verifies the presence and amount of organic material and ensures traceability throughout the entire supply chain.
