JN1814 Hardshell Workwear Jacket GRS

Professional, wind- and waterproof, breathable work jacket for extreme weather conditions

Durable and sturdy rip-stop fabric made of recycled polyester, wind- and waterproof (10,000 mm water column), breathable and permeable to water vapour (5,000 g/m²/24h) Sealed seams
Water- and dirt-repellent thanks to BIONIC-FINISH®ECO
Stand-up collar
Detachable, width- and length-adjustable hood
Width-adjustment on hem, inner cuffs
Extended back
Full-length under-panel waterproof 2-way zip with storm flap and chin cup
Side pockets and breast pocket with waterproof zip, 1 zipped inner pocket
1 inner pocket with hook-and-loop fastener
Reflective elements (without protective function/no PPE) at the back and on the sleeves
Zip for decoration at the back
Zips: YKK

Fabric:	Outer fabric (200 g/m²): 100% polyester (recycled) Lining: 100% polyester (recycled)
Country of origin:	China
Customs tariff number:	62014010

Features

BIONIC-FINISH Water Repellency
Nature-inspired technology gives textiles water-repellent properties and is based on a technology that does not intentionally use fluorine-containing finishing chemicals. A special microstructure on the fibre surface helps water and aqueous soiling to bead up and roll off, while preserving the material's characteristic properties.

Breathable-Permeable to water vapour
Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m2 within 24 hours. The higher this figure, the more breathable the textile is.

Water column of at least 1.500 mm
The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

Taped seams
To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.

GRS 100%
The indicated percentage of this product consists of recycled polyester, certified according to the Global Recycled Standard (GRS). The GRS is a globally recognized standard that verifies the presence and amount of recycled polyester, ensures traceability throughout the entire supply chain, and includes additional requirements for environmental and social practices.
