

Professional, wind- and waterproof, breathable work jacket for extreme weather conditions

Durable and sturdy rip-stop fabric made of recycled polyester, wind- and waterproof (10,000 mm water column), breathable and permeable to water vapour (5,000 g/m²/24h) Sealed seams
 Water- and dirt-repellent thanks to BIONIC-FINISH®ECO
 Stand-up collar
 Detachable, width- and length-adjustable hood
 Width-adjustment on hem, inner cuffs
 Extended back
 Full-length under-panel waterproof 2-way zip with storm flap and chin cup
 Side pockets and breast pocket with waterproof zip, 1 zipped inner pocket
 1 inner pocket with hook-and-loop fastener
 Reflective elements (without protective function/no PPE) at the back and on the sleeves
 Zip for decoration at the back
 Zips: YKK

Fabric: Outer fabric (200 g/m²): 100% polyester (recycled)
 Lining: 100% polyester (recycled)

Country of origin: China

Customs tariff number: 62014010

Features

BIONIC-FINISH@ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONIC-FINISH@ECO protects man and nature.

GRS Standard

PET bottles are recycled into new fashion. Plastic bottles are crushed, melted down and spun into new yarns, some of which are used in production up to 100%. The Global Recycled Standard (GRS) stands for independently verified recycled materials, transparent supply chains and fair, environmentally friendly and health-conscious production conditions.

Breathable-Permeable to water vapour

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

Water column from 1.500 mm

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

Taped seams

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.
